			Run

Click on the **"Run"** button.

#### **Enter Register**

1) Click on the down arrow to select which register you are sending the file to. It is best to send the mix file to 1 register at a time and allow it to send completely before sending to another regsiter.

2) Click the **"OK"** button.

### **Additional Information**

The "Transfer" message appear in the top middle of the screen where the date and time normally appear.
